SUBJECT: FADMA Die & Mould 2008-2009 Directory

Dear Sir / Madam:

Greetings from Federation of Asian Die and Mould Associations!

The Federation of Asian Die and Mould Associations, is a regional grouping of die and mould manufacturers and precision engineering associations which was conceived and formed with the objective of providing a regional platform for the exchange of information and views pertaining to the business activities of member associations and their constituent member companies; promoting standardization; and enhancing the technological competencies of constituent member companies of the member associations.

Presently, we are on the process of preparation for our upcoming FADMA 2008-2009 Directory to provide a very useful medium.

FADMA 2008-2009 Directory will be a perfect reference to learn the following:

- List Members of FADMA Association Members
- How to do business on different countries in Asia
- Latest technologies available in the global market

The 200 pages Directory is expected to reach and read globally. Printed copies will be distributed to all members of FADMA Association Members, and the remaining copies will be distributed in some major exhibitions internationally.

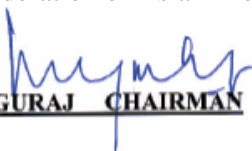

It is also an ideal medium in reaching out to your prospective buyers by advertising your products and / or services, as the buyers will also consider it as one-stop guide.

Given so, we encourage you to consider our directory as part of your marketing tool by placing an advertisement and let us connect you to all your potential customers.

Attached is the application form for your reference of advertisement specifications and confirmation.

Should you have further question/s, please do not hesitate to e-mail or contact us.

Yours sincerely,
For Federation of Asian Die & Mould Associations

N. REGURAJ CHAIRMAN

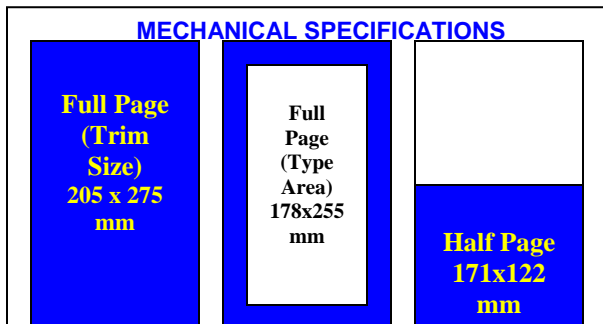

Federation of Asian
Die & Mould Associations
